

HUIJINMESH

**LASER CUT PANELS  
ARCHITECTURAL & DECORATIVE**

*Huijin Mesh is a design and manufacturer specializing in laser cut panel.*

*The panels are widely used in architectural and decorative use in both exterior and interior.*

## Applications of laser cut panles:

**Privacy screen:** Hide areas that require privacy and creat sectioned areas in a room or building.

**Handrail screen:** Our panels can be inserted into railings on stairs or balconies to make the railing more beautiful. These panels are workable for railings indoor as well as outdoor.

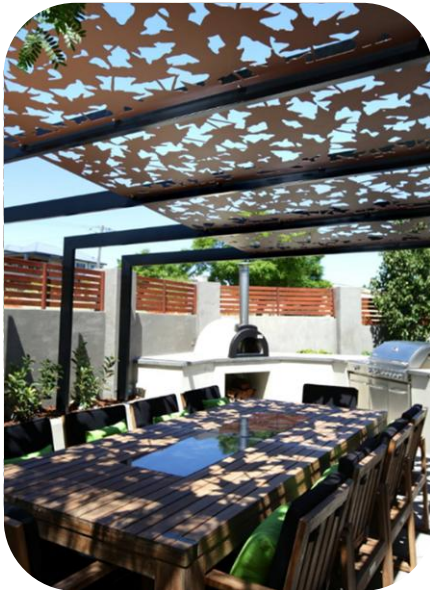

**Window screen:** Our panles can hide private areas in your home or business area, but also create shade in a more permanent way.

**Wall cladding:** A unique and district way to provide cladding to a building or space. Provide both protection and architectural aesthetics to our building or area.

**Canopy screen:** Provide shade to the outdoor sitting areas. They can also create dynamic ans shifting shadows as the light moves in the day. Canopy screens make areas more standout value to your home and business area.

**Room divider:** Our panles can not only separate the room in different functional area, but also increase the aesthetics apperance.
